**Discoverer II Nears Fiery End**  
 INGLEWOOD, Calif., April 22 (UPI)—The Defense Department announced last night that the polar-orbiting Discoverer II satellite launched April 13 will probably burn up in the earth's atmosphere late Saturday or Sunday.  
 The satellite's radio beacon stopped sending signals Monday night, but observers in the Atlantic "have sighted Discoverer II visually for the past two or three days on almost every pass," the Ballistic Missile Division said.

If boiled eggs get mixed with raw ones, you can separate them by spinning them. Raw eggs will not spin, but cooked ones will twirl like a top.

**Girl and Two Boys Latest Entries in Bee**

By BETTY RUSSELL, Tribune Spelling Bee Editor  
 A girl and two boys have added their names to the growing list of entries in The Tribune's Spelling Bee May 16 at the Civic Auditorium.  
 Marilyn Moore, a seventh grader at Raton Junior High School, will represent Colfax County Schools.  
 Her prize for winning the county contest is an expense paid trip to Albuquerque given to her by the sponsors, The Raton Daily Range.  
**Horseback Rider**  
 The champion speller is the daughter of Mr. and Mrs. E. N.

Moore of Raton. Her interests are reading, horseback riding, collecting recipes and swimming. She plans to study animal husbandry to become a rancher.  
 "Control" was the winning word for Marilyn. Placing in the contest were Owen Littleton of Springer and Kathryn Stark of Raton, both eighth graders.

William Lewis (Billy) Kirtley will represent Zuni Elementary School. He is the son of Mr. and Mrs. G. N. Kirtley of 2332 Florida NE, and is in the sixth grade.  
 Undecided about his future goals, he has several current interests including electric trains, horses and drawing.  
 Billy spelled "kindness" correctly in the bee. Second and third place went to Don Caughran, and Greg Bledsoe, both sixth graders.

**San Ignacio Winner**  
 San Ignacio School winner is John Romero, son of Mr. and Mrs. Hilario Romero, 402 Gomez NE.  
 An eighth grader, he has decided to be a teacher. In his spare time he reads autobiographies.

**Comeback Reported For Prairie Chicken**

By Science Service  
 NORMAN, Okla.—Research in Oklahoma indicates that the lesser prairie chicken, an abundant game bird early in this century, can make a comeback instead of becoming extinct as the heath hen did in years past.  
 The lesser prairie chicken thrives best in regions where the soil is too sandy or shallow to cultivate successfully, said Farrell Copelin, project leader in prairie chicken management research at Woodward, Okla.  
 Mr. Copelin said the spring of 1958 was his best season for trapping and studying these birds. One day this spring he caught 75, and on other days he has caught 15 to 30.
