**West Side Story Work of Film Art**

"West Side Story" must stand forever as a work of film art which proves how great a motion picture can be. There have been great dramas, and great musicals, but "West Side" deserves a separate niche for combining and realizing all the potential magic of the movie camera. It explores a socio-economic theme without preaching, details a tragic love story without moralizing and above all approaches the audience with the implicit idea that it has a story to tell intelligent people. And it hits with the impact of bare knuckles beating vainly against a brick tenement.

**198 Objects Now in Space**

By JOHN TROAN  
Script-Howard Science Writer  
WASHINGTON, July 10 — The U. S. reported 198 objects now are whirling through space. The total includes seven secret satellites launched by the U.S. Air Force and four semi-secret Russian satellites. Five of America's secret seven pass over the entire Soviet Union each day. The other two miss only the extreme northern fringes which harbor one of Russia's atomic test sites. The U.S. satellites, at least four believed to be experimental reconnaissance ships, are orbiting from 130 to 2,100 miles up. Russia's semi-secret satellites criss-cross the entire U.S. daily at altitudes of 124 to 930 miles. The Soviet Union says they carry only instruments to make scientific studies but some U.S. space experts suspect Russia is seeking to perfect "sky spies" similar to those this country is working on. In all, 44 satellites are in orbit around the earth. The U.S. has put up 38 of these and Russia five. One was launched jointly by the U.S. and Britain. In addition, three U.S. and two Russian vehicles are orbiting the sun as artificial baby planets. The 149 remaining objects in space are celestial junk. They are burned-out rockets and pieces of launching vehicles that trailed satellites into orbit.

**Santa Fe Railway May Cut Personnel**

CHICAGO, July 10 (AP) — There may be a manpower cut on the Santa Fe Railway, it was indicated here today. Other railways across the nation have said that they will cut personnel to meet the costs of a 10.28 cent raise for non-operating employees. Ernest Marsh, Santa Fe president, said he is unable to estimate now the effect of the increase but he "feels some manpower cut must come."

**\$15,000 Asked In Court Suit**

Two Oklahoma City men have filed a \$15,000 suit in U.S. District Court here to recover a stopped payment check allegedly issued by a

Portales man as down payment on a ranch. Bob Graham, a real estate dealer, and rancher J. Alton Thompson, who sold his place to W.V. Starnes of Portales. They alleged that Starnes stopped payment on a \$10,000 check written as down payment on the Thompson ranch. And Thompson seeks \$5,000 alleging Starnes let bulls mix at will with heifers and cows in a registered Hereford herd. He said this would make it impossible to determine blood lines in the next calf crop and would lessen its value. Plaintiffs alleged Starnes has refused to honor the check and pay the \$40,000 balance on the Muskogee County ranch.

**Gambling Raid**

CARLSBAD, July 10 (UPI) — City police raided a Carlsbad home Sunday and arrested nine men for alleged gambling violations on the Muskogee County ranch.
